ENERGY, UTILITY, AND RENTAL ASSISTANCE

Sometimes, due to funding restrictions and high need for services, we are unable to assist with utilities, rent, and energy bills. The following are community partners who you can contact before calling us. We work with all of them, and can sometimes pool together resources to take care of a bill. They are also sometimes able to help with items we're not able to assist with. It is always worth calling around to find out which assistance is going to best meet your needs.
